## **D.W. MORGAN NAMED PARTNER IN EPA'S SMARTWAY PROGRAM RECOGNIZING FUEL-EFFICIENT TRANSPORTATION, LOGISTICS PROVIDERS**

PLEASANTON, Calif., November 10, 2009—The **D.W. Morgan Company**, a supply-chain management and transportation logistics services firm, has been named as a SmartWay Transport Partner by the Environmental Protection Agency.

The SmartWay brand identifies products and services that reduce transportation-related emissions. Through the program, the EPA recognizes those companies that, through their policies and business associates, help to protect our environment, reduce fuel consumption, and improve our air quality for future generations.

“In today’s clean-fuel economy, this is a significant milestone for the D.W. Morgan Company, demonstrating its commitment to reducing its carbon footprint and combating climate warming,” said **David W. Morgan**, CEO and founder of D.W. Morgan Company. “As more businesses demand SmartWay certification of their transportation and logistics providers, the SmartWay symbol signifies Morgan’s efforts toward improving air quality and reducing greenhouse gas emissions.”

D.W. Morgan is named as a SmartWay Partner in the Truck Carrier category, and early next year the company will be recognized as a SmartWay Partner in the Logistics category as well.

SmartWay Partners must demonstrate fuel efficiency and a reduction in greenhouse gas and air pollutant emissions. This is achieved through the operation of fuel-efficient, reduced-emission vehicles and fuel-saving policies that contribute to achieving these goals.

The SmartWay Partner List may be viewed online at: [www.epa.gov/smartway](http://www.epa.gov/smartway).

Last week, D.W. Morgan was honored in *Supply & Demand Chain Executive's* 2009 Green Supply Chain Award issue as a company that demonstrates policies and initiatives that contribute to the health of the environment.

### **About D.W. Morgan Company**

D.W. Morgan Company helps the world's top manufacturers provide Supply On Demand® for their clients.
