Aaron Jones  
Director of Technology  
D.W. Morgan Company

Director of Technology Aaron Jones has seven years of experience in technology. Mr. Jones joined D.W. Morgan in 2007 and brings on board his past experiences to develop Morgan's newest applications. These applications support interactions between clients and Morgan's internal projects. Aaron focuses on providing the best technical support to ensure D.W. Morgan continues its reputation as a leading supply chain optimization, logistics, transportation and technology solutions service provider.

Prior to joining D.W. Morgan, Mr. Jones spent four years as a web developer, quality assurance engineer, and product manager. Mr. Jones then gained three years experience as an IT consultant in the freight and logistics industry.

Mr. Jones graduated from the University of California, Berkeley with a Bachelor's Degree in Business Administration.
